

ANNUAL BULLETIN
ON
HOSPITAL STATISTICS - 2023
DEEN DAYAL UPADHYAY HOSPITAL
GOVT. OF NATIONAL CAPITAL TERRITORY OF DELHI
HARI NAGAR, NEW DELHI

FROM THE DESK OF MEDICAL DIRECTOR

I am pleased to introduce Annual Bulletin 2023, DEEN DAYAL UPADHAYAY HOSPITAL, the 26th edition in the series and be made available in digital form on the website of this hospital. The Bulletin presents comprehensive information regarding various services rendered by the hospital during the year 2023 and, in all probability, mirrors the health status and trends in this part of Delhi over the period.

The publication comprises of two sections. Section-A covers the compiled statistical information of this hospital whereas Section-B gives a glimpse of the services provided under various departments of hospital with respective achievements.

The statistical information of hospitals plays a key role in monitoring and evaluating health and family welfare programmes and schemes. This biennial publication endeavors to provide a concise compilation of statistical information of this hospital for use as a Reference Guide in the area of health and family welfare related research as well as implementation of programmes by the Govt. as well as various agencies.

I wish to record my gratitude for the valuable contribution of all the Heads of Departments and the faculty of the hospital including resident doctors, nurses, paramedical & other staff for their efforts. I would also like to place on record my appreciation to the Planning team of Medical Record Department for putting out a concise, analytical and useful Annual Bulletin 2023 under the guidance and supervision of Dr. Soma Mitra, Incharge (MRD) and Smt. Anjali Oberai, Assistant Director, Planning.

Wishing the best utilization of this source of information.

Suggestions for further improvement of the publication in future are welcome.

(DR. B.L. CHAUDHARY)
MEDICAL DIRECTOR
DDU HOSPITAL, HARI NAGAR
NEW DELHI

FOREWORD

The Bulletin is a compilation of Annual Statistics & Achievements of Deen Dayal Upadhyay Hospital for the year 2023. It is an important annual publication of the Hospital, based on the routine data collected from various departments of the Institute.

The statistical section indicates the annual data for various services being rendered in DDUH which includes OPD-IPD patients, Birth-Death occurred, Major-Minor surgeries performed, X-Rays, CT scan, Ultrasound, Physiotherapy etc. done, pathological & microbiological investigations, Emergency Cases, Medico Legal Cases, Bed Occupancy, Blood Bank data of the hospital and so on.

I anticipate that the Annual Bulletin 2023 will be useful for DNB students, researchers, program managers and service providers, in evidence based planning and to make effective health related decisions.

Besides the routine hospital statistics presented every year, the edition also highlights the key achievements of various departments along with the services rendered in each with a focus on infrastructural developments and renovations of wards, ICUs and OT complexes, for which the credit goes to the Medical Director, Dr. B.L Chaudhary, DDUH.

The publication of this bulletin could not have been possible without the efforts of many individuals especially the planning team consisting of Sh. Raj Kumar, MRO, Sh. Deepak Jaiswal, Statistical Officer, Smt. Bhawna, Statistical Assistant and Sh. Praveen Kumar, Junior Assistant, who worked under the guidance of Smt. Anjali Oberai, Assistant Director, Planning. I extend my sincere thanks to all faculty/staff for their generous support in bringing up this edition of the bulletin. Contribution of supporting staff of two Nursing Orderlys, Sh. Ramesh Chand and Smt. Poonam in finalization of this Bulletin cannot be ignored.

The valuable guidance and suggestions of Dr. B.L. Chaudhary, Medical Director is highly appreciated and gratefully acknowledged.

I further extend my sincere thanks to all the Heads of the Departments and subordinate staff for their contribution and inclusions for this publication.

(Dr.Soma Mitra)
Incharge, MRD
DDU Hospital, Hari Nagar,
New Delhi.

BRIEF HISTORY

Deen Dayal Upadhyay Hospital was started in 1970 as a 50 bedded hospital which was extended up to 500 beds in 1987. Emergency services were started in 1987 for day time only and with effect from April, 1988 it became functional round the clock. In 2008, trauma block was commissioned which increased the bed strength to 640; emergency services shifted to this new block with expanded emergency room and wards. Hospital has expanded to 41 Paediatric Intensive Care units which includes 25 bedded Neonatal ICU-cum-Nursery, 08 bedded Out Born Nursery (OBN) as well as Paediatrics ICU (PICU) each. The functional Bed Strength of DDUH is now 648.

Apart from routine OPD facility, facility of Special Clinics such as Deaddiction clinic, Breast Clinic, CTEV, Vascular and Diabetic foot clinic, Tumours Clinic, Deafness Clinic/ Vertigo, Rhinology Clinic, Harniya Clinic, Asthama Clinic and Sunday Clinic (for Sr. Citizen Med.) along with the OPD facility under AYUSH for Ayurveda and Homeopathy, are also being provided in DDUH.

This hospital is one of the largest facilities providing hospital with specialized services and inpatient care to people of West Delhi. It is a referral central for peripheral hospital like CGHS, ABGH, SardarVallabBhai Patel Hospital and various private hospitals of West Delhi. It also imparts training to various Post graduate and under graduate medical students and Para-medical students

In its continuous journey of improvement, many infrastructural revamps and renovations have been carried out in various Wards and Departments of the hospital to make these well equipped with updated technology and machines to provide quality care.

DEPARTMENT OF MEDICINE

Medicine department in DDUH is one of the largest facilities providing inpatient care to medical patients in West Delhi. It is a referral centre for peripheral hospital like GGSH, RTRM, DDH, ABGH, Sardar Vallabh Bhai Patel Hospital, nursing homes and various private Hospitals of west Delhi.

Brief description of various wards of Deptt. of Medicine:

- Medicine Emergency

After being referred to the Med. Emergency, Patients are examined, investigated & managed according to the severity of their illness. Medicine Emergency ward has 16 beds capacity. Patients are first stabilized in Medicine Emergency itself then appropriate/needful patients are admitted in Medical Wards for further management. Medico legal cases are also first observed & handled in medicine emergency.

- Medicine wards 8,9,10,11

Patients after admission shifted to respective Med. Wards, where detailed investigation & management is carried out. A variety of patients are managed in wards from Cardiac, Respiratory, CNS(Meningitis, Encephalitis), Infective (Dengue/Malaria etc.), Anemia etc. Total number of beds in medicine wards 8,9,10 & 11 is 30.

- ICCU

Severely sick patients admitted in wards are further transferred to ICCU or ICU as per availability of beds & proper Intensive care is given. Number of beds in ICCU is 10.

- Isolation ward

Isolation ward is used to isolate patients who pose a risk of passing a potentially harmful infection on to others. Such infections can range in severity widely, from diseases such as influenza to ebola, although more precautions are generally taken with diseases of a higher mortality rate. Number of beds in Isolation ward is 10.

Apart from above, following special clinics are also operated by Medicine Department. These clinics are staffed by healthcare professional from various units of the Medicine Department.

S.No	Day	Special Clinics
1	Monday	Respiratory Clinic (Unit-1)
2	Wednesday	Diabetic Clinic (Unit-2)
3	Friday	Hypertension and CAD Clinic (Unit-3)

Diagnostic and Therapeutic procedures available in the Deptt.:

- Hemodialysis
- 2D- Echo
- PFT
- Multipara Monitors
- Bipaps
- Ventilators
- Defibrillator

- Infusion Pumps
- Ascitic Fluid Tapping
- Plueral Fluid Tapping
- CSF
- Blood Transusion

Achievements/ Upgrades of Medicine Department during the year.

- Waiting area for Patient Attendants in Medicine Department has been newly constructed.
- ICCU for severely sick patients has been renovated..

Awards:

- Special Recognition of outstanding performance and commitment to excellence under the leadership of HOD Medicine.

Workshops/Seminar/other Programmes

- DNB seminars were conducted on weekly basis.

Equipments acquired during (Jan 23 to Dec 23).

- Echo Machine.
- ABG Machine.
- Dialysis- RO Plant.

Departmental Targets for the year 2024.

PGs.

- To provide excellent clinical care to patients as per laid guidelines in time effective manner.
- To plan and accomplish academic developments in teaching, clinical care protocols to residents and
- Procurement of various Medical diagnostic Equipments.
 1. Upper GI Endoscope
 2. TMT

ORTHOPAEDICS DEPARTMENT

Orthopedics department is approximately 37 years old with 5 faculty members and a team of resident doctors along with staff nurses, technicians and orderlies.

- Orthopedic Emergency

After being referred to the Med. Emergency, Patients are examined, investigated & managed according to the severity of their illness. Medicine Emergency ward has 16 beds. Patients are first stabilized in Medicine Emergency itself then appropriate/needful patients are admitted in Medical Wards for further management. Medico legal cases are also first observed & handled in medicine emergency.

- Ortho wards 3, 4 and CIP ward

Patients after admission shifted to respective Med. Wards, where detailed investigation & management is carried out. A variety of patients are managed in wards from Cardiac, Respiratory, CNS(Meningitis, Encephalitis), Infective (Dengue/Malaria etc.), Anemia etc. Total number of beds in medicine wards 8,9,10 & 11 is 30.

Apart from above, special clinic for Club Foot Clinic is also operated by Orthopedic Department.

Achievements/ Upgrades of Medicine Department during the year.

- Procurement of Two O.T. Ceiling Lights for Main OT.
- Procurement of One Portable O.T. Light for Emergency Ortho O.T.
- Procurement of Five Motorised Pneumatic Tourniquet for Ortho O.T

Awards:

- Dr. S. K. Sharma (SAG) and Dr Kumar Narendra Mohan (CMO) awarded with Independence Day Award for the appreciation of their services.

Workshops/Seminar/other Programmes

- Paper presentation on "Management of Relapsed Club Foot" in Indian Orthopedic Association Conference 2023 by Dr. Vineet Arora.
- Paper presentation on "Swashbuckler approach for distal 1/3# femur" by Dr. Pratikshay, DNB Student.
- Organising Chairman for Basic Trauma Course with Delhi Orthopedic Association in Feb 2023- Dr. Vineet Arora.

Departmental Targets for the year 2024.

- Procurement of Orthopedic Consumables Implants.
- Procurement of Orthopedic Non-Consumables Instruments.
- Procurement of Orthopedic Operation Theatre Table.
- Procurement of Electrocautery.
- Procurement of Battery Operated Orthopedic Drill.

DEPARTMENT OF PSYCHIATRY

Psychiatry department in DDUH is taking interdepartmental referrals from all other departments like ICU, ICCU, Gynecology, Medical, Ortho, Surgery, Pediatrics etc. of Hospital.

Brief description of various wards of Deptt. of Medicine:

- **Psychiatry ward**

05 bedded Female Juvenile Drug De-addiction ward has been started w.e.f. May, 2023 for psychotherapy.

- **OPD**

Outpatient Department is operating at daily basis.

Apart from above, following special clinics are also operated by Psychiatry Department.

S.No	Day	Special Clinics
1	Monday	Child Psychiatry Clinic
2	Tuesday & Thursday	Juvenile Drug Deaddiction Clinic Female

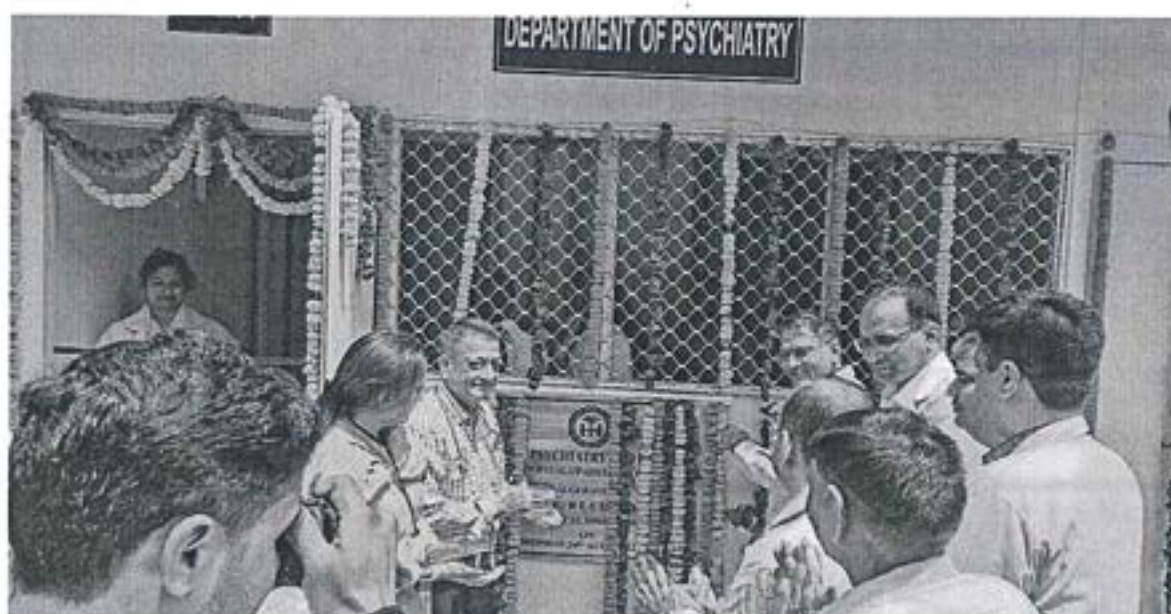

- **OST Clinic**

Opioid substitution therapy is provided in a supervised mode with periodic follow up with psychiatrist to provide comprehensive care for the associated psychiatric and medical co-morbidities.

- Seminar on Energy sources in May, 2023.
- Cadaveric Workshop on following topics:-
- Vascular Exposure & Repair in May, 2023.
- Trauma in May, 2023.
- Laproscopic Intestinal Anastomosis in June, 2023.
- Thoracic Surgery & VATS in Oct, 2023.

Departmental Targets for the year 2024.

- Installation of OT lights in Main OT-II (C&D), Minor OT and Emergency OT.
- Installation of Electrosurgical Unit in Minor OT.
- Departmental Library for DNB students.
- Seminars and Cadaveric workshops.

DEPARTMENT OF OBSTETRICS AND GYNAECOLOGY

Department of obstetrics and gynaecology is a tertiary referral centre of West Delhi, managing all high risk cases along with routine cases. It is a busy department with heavy OPD and IPD. DDUH is also recognized as DNB teaching institute by NBE (National board of examinations) and is conducting DNB programme in this department.

The Deptt. provides comprehensive antenatal care, family planning services and major gynaecological surgeries including endoscopic surgeries.

Facilities available here are OPD – ANC, GYN, Family Planning, Infertility, Cancer OPD. It provides MTP and family planning services. Deliveries and Caesareans section are conducted 24 X 7. Routine gynecological surgeries for benign cases like ovarian cyst, fibroids and for malignancy like uterine cancer are also done here. Endoscopic gynecological surgeries are also performed here. Cancer screening facilities are also available here.

Department conducts various public awareness programmes from time to time.

Research publications in many journals have been published by DNB students and faculty. The faculty has been speakers in many esteemed CME & conferences.

Every member of this department is in the endeavour to provide the best comprehensive services to women.

Achievements/ Upgrades of Department during the year.

- New Laparoscope for Gynae surgeries received in Main OT.
- Renovation of labor room 1 and maternity Operation theatre according to NQAS & LAQSHYA GUIDELINES.
- NQAS & LAQSHYA certified labor room.
- Gynaecology casualty relocated to a spacious renovated area.
- Several awards won by family planning unit at state level for their exemplary achievements, maximum number of PPIUCD, Ligations and Non scalpel vasectomy to name a few.

Workshops/Seminar/other Programmes

- CMEs on Recent updates on several topics
 - Contraception — July'23
 - AOGD clinical meeting — August'23
 - Workshop on Post partum hemorrhage in state gynaecology conference - August'23
 - Workshop on Hypertensive disorders in Pregnancy-National conference — November'23
 - Cancer awareness done for 2 weeks twice in February and November
 - World population Pakhwada celebrated with enthusiasm in July'23 workshop on post partum hemorrhage and Eclampsia at Delhi Secretariat by faculty
- Active participation by all faculty members in various states and national conference as speakers and panelists

DEPARTMENT OF PAEDIATRICS

Pediatric department of Deen Dayal Upadhyay Hospital cater patients from West Delhi which is densely populated .It is also a referral centre for Shri Dada Dev Matri Avum Shishu Chikitsaalaya , Acharya Shree Bikshu Hospital ,Guru Gobind Singh Govt. Hospital ,Sardar Vallabh Bhai Patel Hospital, Central Jail Hospital and Rao Tula Ram Hospital.

The Department handles patients through OPD, Paediatric emergency, Labour room and NICU, Out born nursery, PICU Paediatric Ward and Thalassemia(Day care).

Medical Man Power includes GDMOs, Specialists, Senior Residents, DNBs, Junior residents.

FACILITIES

1. OPD facility with following Special clinics:-

- Asthma Clinic
- Nephro Clinic
- HRC Clinic
- CLHA Clinic
- MRC Clinic

2. Neonatal Intensive Care Unit(NICU)

3. Paediatric Intensive Care Unit(PICU)

4. Out Born Nursery(OBN)

5. Wards

- HDU(Highly Dependent Unit)
- Diarrhoea Unit
- Nutritional Rehabilitation Centre

6. Thalassemia Day care Centre.

Achievements/ Upgrades of Medicine Department during the year

- Renovation of NICU Complex.
- Renovation of ward-5.
- New Procurement and installation of medical equipments
 - (i) ABG Machine
 - (ii) Warmers
 - (iii) Weighing Machine
 - (iv) Infusion Pump
 - (v) Infantometer.

Workshops/Seminar/other Programmes

- Seminar on Severe Acute Malnutrition (SAM).
- Seminar on Dengue
- Online workshop on MR vaccination campaign.
- Well baby show as part of Poshan Maah.
- IAP Breastfeeding week celebration.
- Intensified Diarrhoea prevention fortnight.

- Celebration on Hepatitis Day.
- Zinc and ORS week.
- Diarrhoea week.
- Poshan maah celebration
- SAANS Programme.

Departmental Targets for the year 2024.

- Play area in ward-5 and OPD-7.
- Upgradation of Nursery equipments.
- Audiovisual display for health education and promotion in department of Pediatrics
- Creation of area for teaching activities for DNB students.

DEPARTMENT OF OPHTHALMOLOGY

The department of Ophthalmology, DDU Hospital is presently being headed by Dr. Deepak Varma (SAG) supported by 5 other consultants. The department is running daily OPD from Monday to Saturday along with special clinics such as Glaucoma clinic, Retina clinic, Squint clinic etc. in the afternoons. The eye ward is presently housed on 3rd floor, Trauma block and comprises of 35 beds.

FACILITIES AVAILABLE:

1. The Department provides comprehensive eye care on Outpatient basis (Daily OPD from Monday to Saturday) using state of art equipment. Special Clinics like Glaucoma Clinic, Retina clinic, Strabismus clinic are also being done in the afternoons.
2. Refractions are being performed and corrective spectacles are being prescribed.
3. Management of cataract cases with phaco emulsification surgery and intra-ocular lenses is being done. Yag capsulotomies being done.
4. Glaucoma workup and surgeries. Glaucoma workup using Applanation tonometry, OCT,UBM, Laser peripheral iridotomy,gonioscopy, visual fields (perimetry).
5. Strabismus and Neuro ophthalmology work up and management of Squint cases.
6. Oculoplastic surgeries.
7. Retinal disorders and treatment wherever possible, diagnosis and treatment using FFA, OCT, green laser, fundus photography.
8. Lacrimal sac procedures like syringing, Probing, DCT, DCR.
9. Retinopathy of prematurity screening and referral to a tertiary care center where required.
10. Ophthalmic emergency services 24x7.
11. Eye bank facilities – retrieval of donor corneas being done round the clock.
12. DNB teaching activities: classes being conducted on Wednesday (1-3 pm) and Saturday (9-10 pm) through seminars, lectures, case presentation etc.
DNB exam (Practical) and FAT exams are being conducted.

ACHIEVEMENTS

- The department of ophthalmology was awarded CERTIFICATE OF APPRECIATION for immerse contribution for cornea retrievals by National Eye Bank RPC, AIIMS for the year 2023
- Faculty and residents of the department won Appreciation Awards by Medical Director of the Hospital on occasion of Independence day in the year 2023.
- Department was upgraded with the addition of centurion Advanced Phacoemulsification Machine in January, 2023.
- Successfully organised Cornea Donation Fortnight and CME on Eye Donation on 31.08.2023 with talks by eminent personalities such as Chief RP Centre and Chairperson, National Eye Bank of India, RPC in DDUH during Cornea Donation Fortnight.
- Successfully conducted DOS monthly meet on 5th March, 2023 with more than 100 delegates from all over Delhi.
- Organised awareness health talk in Eye OPD in the Hospital on 12th Oct, 2023 regarding Safety Practices at work place on the occasion on 24th World Sight day, 2023.

Workshops/Seminar/other Programmes

Faculty and residents have many publications in National and International Journals.

Faculty and residents presented many papers, posters and won prizes at DOS conference, 2023.

Faculties members were appointed as external examiners for DNB Examination and chairperson and panelists in many national conferences.

DEPARTMENT OF ENT

Department of ENT catering to the population of not only West Delhi but also neighbouring states like Up, Rajasthan, Bihar, Haryana, Uttarakhand to provide tertiary level care for the patients. Dept. provides diagnostic, medical and surgical management treatment facilities. Dept. is also the zonal referral centre of smaller and peripheral hospitals of West Delhi. ENT Department has 16 beds each in Emergency ward and Ward-7.

Apart from providing medical care, department is involved in the training of post graduate students pursuing DNB course along with research activities.

The following special clinics are also operated by ENT Department:-

S.No	Day	Special Clinics
1	Tuesday/Wednesday/Friday	Rhinology Clinic
2	Thursday	Deafness/Vertigo Clinic
3	Friday	Cancer/Tumour Clinic

List of Services Provided

A. Diagnostic service like.

- 24 hour emergency services available on all days to cater to accident, trauma, medicolegal cases and other emergency surgeries and medical conditions of ear nose and throat.
- OPD services 6 days a week to diagnose and treat all ENT complaints along with daily minor operative procedures, audiometric evaluation, OAE and BERA.
- Major Surgeries conducted 2 days a week.
- Disability certificates being issued.
- Medical examination of UPSC and other officials.

B. Surgical treatment Services

All major and minor surgical procedure like.

- NOSE - Septoplasty, Rhinoplasty, FESS, Fracture nasal Bone reduction, Inf. Turbinate reduction, Nasal mass excision, Maxillectomy, Endo dacrocystorhinostomy, nasolabial cyst excision, Mucocele of paranasal sinuses excision.
- EAR- Myringotomy, Grommet insertion, Myringoplasty, Tympanoplasty, Mastoidectomy, Stapedectomy, Lobuloplasty, Cysts removals
- THROAT - Tonsillectomy, Adenoidectomy, Hemiglossectomy, Esophagoscopy and Biopsies
- NECK-Microlaryngeal surgery, Thyroidectomy, Laryngectomy, Parotidectomy, Sistrunk operation, submandibular gland surgery, Neck dissection and other Head and Neck surgery including oncosurgery

List of Indoor Service

Routine patients are admitted for medical and surgical treatment.

Emergency Patients who needs emergency procedure i.e. Trauma cases, Foreign body and stridor are admitted and provided relevant treatment.

All major and minor operation and all kinds of endoscopic procedures-

- Diagnostic Nasal endoscopy
- Direct Laryngoscopy
- Oesophagoscopy
- Otoendoscopy

Others

- DNB training is conducted for primary and secondary students.
- Department has observed Deafness awareness in the first week of March as a part of World Deafness Day.
- Cancer awareness & Screening was conducted in the month of February.

Workshops/Seminar/other Programmes

- Dr. Jasmeet Kaur chaired for a session of ENT updates conducted by AOI Gurugram on 01.04.2023.
- Dr. A.K. Mehta chaired for a session of ENT updates conducted by by AOI Gurugram on 01.04.2023.

New procurement of Department during the year

- New Audiometer for hearing assessment was installed.
- New OAE machine for neonatal hearing assessment was installed.
- New Endoscopy sinus system with screen and endoscopes was installed.

DEPARTMENT OF DENTAL SURGERY

Dentistry is a highly specialized field with nine branches concerned with different specialties of dental care in the Hospital, which being a multispecialty hospital catering to whole of west Delhi and patients being referred from neighbouring states, we are spreading smiles across through sustainable efforts.

The various services provided under each speciality of dentistry are as follows:-

SerialNo.	Sepeciality	Opd	No. Of Patients T/TIn 2023	Major Services Provided
1.	Prosthodontics (replacement of natural teeth with artificial substitutes)	Daily	12	Complete denture fabrication, RPDs, Maxillofacial prosthesis, recementation of crowns, vaginal moulds.
2.	Conservative dentistry & endodontics (management of decayed tooth)	Daily	6260	Restoration of cavities, RCTs, Asthetic restorations including cosmetic smile design.
3.	Periodontics (Management gums & PDL diseases)	Daily	1905	Oral prophylaxis, Gingival & periodontal surgeries, root planning.
4.	Oral & Maxillofacial surgery (Surgical management of diseased oral tissues)	Daily	3863	Tooth extractions, alveoloplasty, RTA mangement.
5.	Paedodontics (Child Dentistry)	Daily		Prevention & Treatment of oral problems related to children.
6.	Oral medicine, diagnosis & radiology (dental OPD)	Daily		Diagnosis & pharmacologic, radiologic management of oral diseases.
7.	Orthodontics (management of irregular teeth & jaw)	Daily	5	Correction of dento-facial irregularities using removable appliances.
8.	Oral pathology (microscopic investigation of oral tissues)	Daily	233	Various biopsies including excisional, exfoliative & incisional, etc.
9.	Community dentistry (dental public health)	Daily		Health education, community based preventive dentistry, patient education

In addition, we are having special clinics as per schedule;

Serial no.	Days	Time	TCA procedures
1.	Monday & Thursday	1pm- 3pm	Prosthodontics
2.	Tuesday	1pm-3pm	Fracture & Oral surgical procedures
3.	Wednesday & Friday	1pm-3pm	Cosmetic Dentistry

Workshops/Academics/Seminars

- Apart from the vigorous clinical schedule for the upgradation of resident doctors and to keep them abreast with the latest.
- Seminars are organized in first week of a month as per schedule.

Department Targets of the year 2024

- Inculcation of various treatment modalities to increase the benchmark of dentistry and in cooperation of various techniques and materials to achieve them will be our aspiration of the year 2024;
1. **Rubber Dam Application**- Epitome of tooth isolation which enhances the durability of restoration, ensures protection of tongue and other oral tissues
 2. **Rotary Endodontics** - Incorporation of speed with precision aspiration of all dental surgeons doing Root Canal treatment.
 3. **Dental Magnification eye loupes**- Highly beneficial in Root canal treatment especially with curved canals ,surgical extraction and diagnosis of lesions which cannot be appreciated by naked eye.

DEPARTMENT OF RADIOLOGY

Radiology Department provides all Radiological Services like Digital X-Rays, C.T. Scan and Ultrasound to all patients from OPD, IPD (Indoor patients) and Emergency round the clock 24X7. Radiology Department also provides all these services to Medico legal Cases (MLC), patients referred from Tihar Jail and other peripheral hospitals and dispensaries.

Department	No. of beds		Special clinic	Facilities available			Any other information
	Ward wise	Emergency		Emergency	OPD	Indoor	
Radiology	NA	NA	NA	Ultrasonography	Ultrasonography	Ultrasonography	
				C.T Scan	C.T Scan	C.T Scan	
				X-Ray	X-Ray	X-Ray	
					Special investigation	Special investigation	
					USG guided procedure	USG guided procedure	

Facilities available in the Department

X-RAY

1. 1000 mA Dual Detector Digital X-Ray Machine is installed for general public.
2. Special investigative X-Rays : IVP, Barium studies, HSG, RGU-MCU, Sinogram etc. are also done in the department.

ULTRASOUND

1. Ultrasound Facility.

2. **Special Ultrasonological procedures** – Ultrasound Guided FNAC, Colour Doppler, drainage of liver abscess etc. are also done in the department. Diagnostic & therapeutic aspirations – pleural, peritoneal etc.

C.T. SCAN

1. C.T. Scan Facility.
2. Special C.T. Scan procedures like High Resolution C.T. Scans, C.T. Angiography etc.

Departmental Achievement for the year 2023

- New Procurements and installation of medical equipment :
Two Ultrasound machines with color Doppler Procured and installed in the Department of Radiology on 21-02-23.

Workshops/Seminars/Other program:

CME and other training programs on various topics run in the department as routine practice.

Departmental Targets for the year 2024

- To Procure one dedicated X ray machine for emergency patients and install it in A & E Block
- To decrease waiting time of patients for different investigations .

DEPARTMENT OF CLINICAL MICROBIOLOGY AND INFECTIOUS DISEASES

The Department of Clinical Microbiology and Infectious diseases provide laboratory test services to all OPD and Admitted patients of DDUH. It also caters to patients referred from other health care centers of Delhi as well as walk in clients for tests like HIV. During the Covid Pandemic test samples have also been received from various districts and dispensaries of Delhi Govt.

The Staff comprises of highly trained Clinical Microbiologists, Medical Lab technicians, Counselors, Nursing Orderlies, Peons, Safai Karamchari.

HIV program is supported by various trained workers of NGO's. Covid Program is supported by various workers provided time to time by the DHS.

Facilities Available

1. Aerobic Bacterial Culture and Identification Tests

Blood, Urine, Cerebrospinal Fluid, Pus and Wound swabs, Respiratory Secretions, Sputum / Throat swabs, Other Sterile body fluid (Pleural / Synovial / Ascitic / Pericardial/ Vitreous etc.), Catheters / Endotracheal Tubes, High Vaginal swabs, Eye /Ear/ Nasal / Oral, conjunctival, umbilical swabs

2. Antibiotic Sensitivity Tests-

Disc diffusion tests, MIC, ESBL detection, MRSA detection

3. Serology

Widal/Typhidot, RPR, Hepatitis A,B,C & E, HIV in ICTC Room Near Blood Bank, Dengue IgM & NS1, Chikungunya IgM, Japanese encephalitis Ig M, TORCH, Latex agglutination for CSF (Cryptococcus, Esch. Coli, S. pneumo, H. inf., Meningococci)

4. Microscopy

Direct Gram's Stain, ZN Stain for AFB (M. tuberculosis & M. leprae in SSS) except sputum, KOH mount for Fungus, Hanging Drop for Vibrio cholera in stool, Modified AFB staining for Cryptosporidium spp; etc, India Ink for Cryptococcus in CSF, Albert's stain for C. diphth.

5. Hospital Infection Surveillance

Air testing in OT & ICU, NICU, Water sampling for pathogens, Sterility test of blood bags & component bags for bacteria & fungi, Sterility test of dialysis fluid & IV fluids for bacteria & fungi, In use testing of disinfectants, Environmental samples

Achievements/ Upgrades during the year.

- All sample processed within time despite severe staff constraints.
- Regular training/study programme for all categories of health care workers and students (MLT, Bsc Nursing, MSC, Bsc) on "hospital infection control, scientific biomedical waste management, Anti Microbial Resistance, Clinical Microbiology, Infectious diseases" of various health care facilities/institutes.
- Conducted continuing medical education programme organized on Antimicrobial stewardship on 30.11.2023.

- Participating Lab in World Health Organisation sponsored (WHONET) training/reporting on Anti Microbial Resistance.
- National quality assurance standards and kayakalp accredited laboratory.
- Regularly participating Lab under Indian Association of Medical Microbiologists- External quality assurance programs.

Departmental Targets for the year 2024.

- Installation of new automated blood culture system for rapid, accurate report of blood culture in both paediatrics and adult patients.

DEPARTMENT OF PATHOLOGY AND LAB MEDICINE

The Department of Pathology and Lab Medicine provides all essential comprehensive services under one roof. The Department has an extended test menu which includes routine and special investigations of Hematology, Biochemistry, Histopathology, Cytology, Clinical Pathology and a dedicated 24 hrs emergency lab services.

The laboratory works with an objective of providing accurate and timely reports to its patients. Best efforts are made that blood samples for all prescribed tests are collected in a single prick at one spot. Patients at collection centre are treated with empathy and separate collection counters are present for Hospital staff, CGHS beneficiaries, Divyang & Senior citizens. Priority is given to those in urgency/difficulty. Laboratory staff & Doctors are easily approachable for any kind of grievance or complaint.

The Laboratory maintains high quality standards which is comparable with best Govt. or Pvt. Labs. Daily Quality Control monitoring is done as per predefined SOPs. All major sections participate in External Quality Assurance Scheme with reputed Institutions/Labs like AIIMS, CMC Vellore, TMC Mumbai. The Department is also participating in KAYAKALP, NQAS, and other GOI programs. A team of qualified and experienced doctors are available in the department to look after their respective fields. Reports go through strict screening by expert doctors before releasing the final report. Periodic/occasional discussions are held with Clinicians of various departments to cater to their special concerns & needs.

The Department stands at par with the best labs in the country with state of the art technology with equipments, both large and small.

The Lab aims to attain full automation wherever applicable to minimize manual errors and utilize manpower to its best. The technical staff is trained at regular intervals.

FACILITIES AVAILABLE

The Haematology section has four 5-Part Fully Automated Haematology Analyzers (Mindray).

Biochemistry Section has world class Fully Automated Clinical Chemistry Analyzers & Electrolyte analyzers (Beckman Coulter, Randox & Eschweiler).

Cytology section caters to FNAC, guided FNAC on specified days, maintaining a good sensitivity and specificity.

Histopathology section, which is at par with any teaching institution, is equipped with fully automated tissue processor and tissue embedding station. Malignancies are diagnosed as per latest CAP criteria, incorporating IHCs (immune histo chemistry) as per requirement.

Clinical pathology has facilities of routine urine examination, semen examination and fully automated Immunoassay Analyzers

Emergency Lab

A dedicated Emergency lab works 24 x7 in the trauma block of our hospital. It is well equipped and has a short turn-around-time to cater to the emergency needs of wards and casualty.

GRIEVANCE REDRESSAL :

Laboratory staff & Doctors are easily approachable for any kind of grievance or complaint.

ACHIEVEMENTS

The Department has an extended test menu which includes routine and special investigations of Hematology, Biochemistry, Cytology, Histopathology, Immunoassays, Clinical Pathology and a 24 hrs emergency lab services.

All samples are processed within time in spite of severe staff constraints.

Academic activities are being conducted periodically so that all lab doctors and staff can keep upgrading their knowledge. Departmental seminars are frequently being conducted.

The lab has a very important role to play in ongoing researches as most projects involve lab investigations. A number of DNB theses have been completed with the support and co-guidance of our specialist.

Regular training program of all categories of healthcare professionals and students is being conducted, which includes MLT, MSc, BSc, MBBS Interns and District Residency program.

Specialist doctors are involved in teaching of B.Sc Nursing students of Pannadai College of Nursing.

Our doctors frequently participate in annual conferences which is a way of self-improvement and projection of departmental work.

The department actively participates in national and state level programs eg. Cancer Control Program, Thalassemia Screening.

Quality control tools are implemented at all levels and Guidelines of NQAS and KAYAKALP are being implemented. All relevant sections of the Lab participate in External Quality Assurance Programs.

Departmental Targets for the year 2024.

- Procurement of a new Immunoassay analyzer to provide uninterrupted services for Hormones, Vitamins and tumour Marker Tests.

DEPARTMENT OF PHYSIOTHERAPY

The physiotherapy department here at Deen Dayal Upadhyay Hospital, Hari Nagar is a specialized unit that provides services related to physical therapy. The department focuses on optimizing human movement, function, and well-being through the assessment, diagnosis, and treatment of various conditions that affect the musculoskeletal, neurological, cardiovascular, and respiratory systems.

The main functions includes:

1) **Assessment and Diagnosis:** Physiotherapists in the department assess and diagnose a wide range of conditions that affect a person's physical function, such as musculoskeletal injuries, neurological disorder, respiratory conditions and more. We use various assessment techniques, such as physical examination, medical history reviews, and specialized tests, to identify the root cause of the problem.

2) **Treatment and Rehabilitation :** Based on the assessment and diagnosis, physiotherapists develop and implement customized treatment plans for patients. These treatment plans may include exercises, manual therapy, electrotherapy, and other interventions aimed at improving mobility, reducing pain, restoring function, and promoting overall well-being. Physiotherapists may also provide education and counselling to patients on injury prevention, self-management, and lifestyle modifications.

Our physiotherapy department offers a range of facilities and resources to provide comprehensive care to patients, including:

1) **Exercise and Rehabilitation Areas:** The physiotherapy department has a designated area for exercises and rehabilitation. This area is equipped with exercise machines, weights, resistance bands, balance boards, specialized suspension plinth and other equipment needed for therapeutic exercises, strength training, and conditioning programs.

2) **Modalities and Equipment:** The department also has various modalities and equipment for different types of physiotherapy interventions. This includes Interferential therapy machines, ultrasound machines, heat and cold therapy equipment, traction tables, Transcutaneous Electrical Nerve Stimulation (TENS), Infrared Lamp, Wax Bath, Shortwave Diathermy (SWD), Longwave Diathermy (LWD), and LASER for pain management, tissue healing, and other therapeutic purposes.

3) **Assistive Devices and Mobility Aids:** The department also has a range of assistive devices and mobility aids, such as crutches, walkers, and canes, that can be used during assessments, treatment, and rehabilitation to support patients with mobility limitations or disabilities.

We have so far acquired Ultrasonic machines, Interferential therapy machines, Transcutaneous Electrical Nerve Stimulation (TENS), LASER, Shortwave Diathermy (SWD), Longwave Diathermy (LWD), Infrared lamps, theabands, theraball, hand grippers, traction tables, suspension plinths, wax bath unit, dumbbells, weight cuffs, and wobble board.

Workshops/Seminars/Other Programme:

Attended health camp on 26.02.2023, organised by human welfare.

Assessment done in disability Camp organised in RTRM Hospital on 01.09.2023 and 02.09.2023.

Departmental Targets for the year 2024

For the betterment of patients, the Department needs new machines like traction tables, Ultrasonic Machines, SWD etc.

To organize workshop, Camps and other programme for the benefit of Patients.

DEPARTMENT OF OCCUPATIONAL THERAPY

The Occupational Therapy Department here at DDU Hospital is a specialized department that provides occupational therapy services to individuals of all ages who have physical, developmental, or cognitive conditions that limit their ability to perform daily activities.

Occupational therapy aims to help people regain, develop, or maintain their ability to perform activities that are meaningful to them, such as self-care tasks, work, leisure, and social participation.

FACILITIES AVAILABLE IN OCCUPATIONAL THERAPY DEPARTMENT :

Assessment Room: This is a private room where occupational therapy evaluations and treatments take place.

Equipment and tools: A variety of specialized tools and equipments are here to help patients improve their skills and abilities. This may include things like sensory integration equipment, and therapeutic exercise, assessment amenities etc.

Mobility and accessibility equipment: As we work with patients who have mobility or accessibility challenges, our department has equipment like wheelchairs, walkers, and other assistive devices available for patient use.

FACILITIES PROVIDED BY AN OCCUPATIONAL THERAPIST INCLUDES:

- Evaluation and assessment: Assessment of client's strengths, weaknesses, and abilities in performing everyday activities, and identify areas that require improvement.
- Treatment Planning: Based on the evaluation, developing a personalized treatment plan to help the client achieve their goals, which may include exercises, activities, or adaptive equipment.
- Physical rehabilitation: Helping clients recover from injuries, surgeries, or illnesses that affect their physical abilities with exercises, massage, or other techniques to improve range of motion, strength, and coordination.
- Adaptive equipment: OTs recommend and provide assistive devices and adaptive equipment such as wheelchairs, crutches, or splints, to help individuals perform daily tasks with greater ease and independence.
- Home modifications: Evaluating a client's living environment and recommend modifications such as grab bars, ramps, etc. to make the home more accessible and safer.
- Work rehabilitation: Helping individuals who have been injured or have a disability return to work by assessing their abilities, recommending job modifications or accommodations, and providing training and support.
- Sensory integration therapy: Working with individuals who have sensory processing difficulties to help them regulate their responses to sensory input and improve their ability to participate in daily activities.
- Paediatrics: Working with children who have developmental delays or disabilities, providing early intervention services to help them achieve age-appropriate developmental milestones and improve their overall quality of life.

EQUIPMENTS USED FOR THERAPY :

- Ankle and Heel Exerciser
- CP Chair and Corner Chair
- Cardio Stair
- Floor exercise mat
- Goniometer -2
- Hand rehabilitation system
- Linear motion steadiness test apparatus
- Pegboard
- Rotary wrist machine

- Sanding unit – Vertical, Horizontal , Inclined
- Scooter Board- circular
- Tremor quantifier
- Tilt table (electronic)
- Vestibular board
- Wrist roller
- Walker rolator (adult)
- Walker rolator (paeds)
- Hand dynamometer
- Medicine Ball.

Workshops/Seminars/Other Programme:

Attended health camp on 26.02.2023, organised by human welfare.

Assessment done in disability Camp organised in DDU Hospital on 24.08.2023 and 25.08.2023 BY Department of Social Welfare, GOI.

Organized Occupational Therapy day on 27.10.2023 in DDU Hospital in the department and gave awareness to patients on rehabilitation services.

Departmental Targets for the year 2024

To organize workshop, Camps and other programme for the benefit of Patients and increase awareness about occupational therapy services in the hospital.

BLOOD BANK

Department of Blood Bank in DDUH is the mother blood bank of eight blood storage centers, catering to the blood needs of RTRMH, GGSH, SDDMSC, ABGH, SVBPH, IGH, Cantonment Gen. Hospital, Mata Gujri Hospital besides the other Government and Private Hospitals.

The routine testing in Blood Group serology and infectious marker labs are being done on fully automated system.

Blood Bank caters to the demand of regular blood transfusion needs of around 500 Thalessemia cases. Having attained the professional excellence, this center has become a referral center for immune-hematology cases including Thalessemia patients many of whom have been referred to for compatibility testing by other Blood Banks as this center has specialized in issuing antibody screened, RH and Kell matched, leuco-reduced packed red blood cells to multiple transfusion cases.

Departmental Achievements for the years 2023:-

This centre has collected 18142 units of blood in the year 2023, out of which 1924 Blood donations were from 28 camps and in-house voluntary collection. Autologous Donations have also substantially increased.

40369 Blood component units have been issued in the year 2023 out of which 82.38% were issued without replacement. This could be possible due to the component separation having achieved more than 99%.

This centre has achieved 100% scoring in Blood Bank External Quality Assurance Scheme as accredited with SDMH Jaipur QCI.

Because of its continuous and qualitative participation in Donor-vigil and Haemo-vigil of Haemovigilance programme of India, Blood Bank DDUH was being selected for the dissertation work of PhD for M.Pharma students coming to National Institute of Biologicals under M/o Health & Family Welfare, GOI.

DEPARTMENT OF ANAESTHESIA

The Department of Anesthesia has two main operation theatres with three major & minor tables in each OT with post OP's, two super speciality OT's (plastic & Neuro surgery) and three emergency operation theatre's with a fourteen bedded ICU.

Elective & Emergency for surgery, orthopedics, obstetrics and gynaecology, ENT, ophthalmology, plastic and neuro surgery are done

The various types of surgeries conducting here are like Emergency laparotomy, laparoscopic cholecystectomy, varicose veins, mastectomy, open/laparoscopic hernioplasty, cataract surgery, tonsillectomy, thyroidectomy, FESS, TKR, spine surgeries, procedures for upper & lower limb fractures, cleft lip and cleft palate repair and management of difficult airway, USG guided blocks and many named procedures

Awards

A Certificate of Appreciation to Dr. Ritu Aggarwal and Dr. Dipali Taneja by Medical Director of the Hospital.

Workshops/Seminars/Other Programme:

BLS training for staff nurses/interns/resident Doctors by Dr Bhawna Saxena.

Departmental Targets for the year 2024

- CSSD renovation.
- PAC clinic renovation.
- Procurement of equipments for more efficient patient care and safety.
